FYI. Internet voting idea will be expensive to set up. This is a first swag from Paul.

**Subject:** Scoping document

Hi Joanie,

Here's the scoping document you requested. It'll give you some idea of how a UOCAVA pilot can be phased in and expanded over a number of elections. Cost is just an estimate, as it will take more discussion of the details of registration integration, which counties may participate, and the number of UOCAVA voters involved to come up with a more precise pricing.

Please let me know if you have any questions.

All the best,

**Paul DeGregorio**
